

CYPRUS
CHAMBER OF
COMMERCE AND
INDUSTRY

Nicosia 2.10.2018

To: All the members of the Cyprus Chamber of Commerce & Industry
From: Department of Services & Trade
Topic: Cybersecurity Resilience Questionnaire

Dear Members & Partners,

The Cyprus Chamber of Commerce & Industry in collaboration with the Cyprus Cybersecurity Organization (CyCSO) are conducting a survey about the Cybersecurity Resilience and Preparedness of the private sector in Cyprus.

The results of the survey will feed into our strategic and action plan for Cybersecurity, as to create a cybersecurity ecosystem and help businesses to ameliorate their resilience and mitigate risks from Cybercrime.

This survey must be filled in by the competent CIO (Chief Information Officer) of the company. In case not such a role exists then it should be the person who is responsible for the information system of the organization or a person on a management position knowledgeable regarding the subject. Still, a C-level involvement is advisable.

It goes without saying that the information provided is completely anonymous and there is no way to know which information is provided by which company.

Finally, we ask you to be sincere and realistic about your situation as only reliable data will help us plan appropriate actions to help the business world.

Please click [HERE](#) to access the survey and we look forward to receiving your responses by Tuesday 30 October 2018.

Should you wish to receive more information about the survey, raise any questions or wish to know more about CyCSO, feel free to contact myself or Mr Constantinos Tsiourtos (CyCSO Executive Director) at ctsiourtos@cy cso.org

We thank you all in advance for taking the time to do this.

Best regards,

Polis Peratikos
Officer
Department of Services & Trade
